SauceDemo E-Commerce Manual Testing: Final Execution Report

Document ID: TER-SAUCEDEMO-001 | Application: saucedemo.com | Execution Cycle: Cycle 1

1. Executive Summary & Quality Verdict

This report summarizes the manual functional test execution conducted on the SauceDemo e-commerce web platform. A rigorous suite of 30 manual test cases was executed covering login authentication, product catalog browsing, sorting algorithms, shopping cart lifecycle, multi-step customer checkout, and mathematical sales tax calculations. The overall test execution achieved a **90.00% Pass Rate** (27 Passed, 3 Failed) on primary flows. Six genuine defects were identified and cataloged, including an empty-cart checkout vulnerability and lack of zip code sanitization.

2. Test Execution Metrics Dashboard

Metric	Count	Percentage	Benchmark
Total Test Cases Planned	30	100.0%	30 Planned
Total Test Cases Executed	30	100.0%	100% Target
Test Cases Passed	27	90.0%	>= 85.0% Goal
Test Cases Failed	3	10.0%	<= 15.0% Tolerance
Test Cases Blocked	0	0.0%	0 Blockers Target
Total Defects Logged	6	N/A	Logged in Defect Log

3. Module-Wise Test Performance Breakdown

Module ID & Name	Total	Pass	Fail	Pass Rate	Primary Finding
MOD-01: Authentication & Session	8	8	0	100.0%	All valid/invalid login & lockouts pass
MOD-02: Product Catalog & Sorting	7	6	1	85.7%	All 4 sorts pass; Search bar absent (BUG-01)
MOD-03: Shopping Cart Operations	6	6	0	100.0%	Badge counters, add/remove, reload pass
MOD-04: Checkout Customer Form	5	3	2	60.0%	Empty cart (BUG-02); Zip validation (BUG-03)
MOD-05: Checkout Overview & Tax	2	2	0	100.0%	Item totals + 8.00% tax verified 100% accurate
MOD-06: Confirmation & App State	2	2	0	100.0%	Order dispatched screen & State Reset pass

4. Summary of Identified Defects

Defect ID	Severity	Summary	Impact
BUG-01	Medium	Missing search bar functionality on catalog	Usability gap for product discovery
BUG-02	High	Allows proceeding to checkout with 0 items in cart	Creates empty $0 phantom orders
BUG-03	Medium	Postal code accepts arbitrary special characters	Downstream delivery logistics failure

BUG-04	High	Inventory 'Remove' button fails in problem_user	Cart state unsynchronized
BUG-05	Low	Broken catalog images showing 404 dog photo	Visual & brand degradation
BUG-06	Critical	Last Name field frozen in problem_user	Blocks order checkout completely

5. Release Recommendation & Sign-Off

VERDICT: CONDITIONAL PASS. The primary shopping path for standard consumers (standard_user) is certified ready for demonstration/staging deployment. Items BUG-02 (empty cart checkout prevention) and BUG-03 (postal code regex validation) are scheduled for Sprint 2 remediation prior to live public release.
